WE ARE THE TEAM OF OPEN-MINDED ARCHITECTS, DESIGNERS, IT WHO CREATE ARCHITECTURE OF THE FUTURE

WE DESIGN SUPER MODERN VILLAS, HOTTELS AND
RESORTS, MULTI-STOREY AND MULTIFUNCTIONAL PUBLIC
BUILDINGS IN RUSSIA, USA, UAE AND AROUND THE WORLD

WE

HAVE EXPERIENCE in building super houses for top global clients

WORK IN BIM, which means we use the most advanced engineering
and software products for design, construction and operation

PROVIDE A FULL CYCLE we design, build, manage and produce
everything that we can think of, we can bring to life

SUPER MEGA VILLAS, HOTTELS AND RESORT DESIGN

MEGA MANSION IN LA CALIFORNIA

The huge 86,000 sq ft five-floor residence has a total of 5 family bedrooms, 5 guest rooms, 2 living rooms (formal and family), separate pet and care areas, dining area, a show kitchen, professional kitchen, an office with a conference room, an entertainment club with various play areas, cinema room, recording studio, a SPA complex, 2 swimming pools, a large gym, an open football field, bomb shelter bunker, private access to the sea, a boat house, a pier, a helipad, 3 elevators.

SUPER MEGA VILLAS, HOTELS AND RESORT DESIGN

MEGA MANSION, LOS ANGELES, CALIFORNIA

The lobby opens onto the street with access to the swimming pool and a large patio with a fireplace to enjoy a pleasant relaxing atmosphere and amazing views of the bay.

SUPER MEGA VILLAS, HOTTELS AND RESORT DESIGN

MEGA MANSION IN LA CALIFORNIA

The staircase connects the ground floor with the private areas of the second floor and guest rooms and entertainment areas on the lower floors. In the center of the composition is a huge chandelier in the form of a tree, which originates on the minus ground floor and reaches the ceiling level of the second floor.

MULTI-STOREY BUILDING CONCEPT

HIGH -RISE RESIDENTIAL AND MULTIFUNCTIONAL BUILDING

Project of the multi-apartment residential complex "Titanic" is planned to be implemented in Niagara Falls, Ontario, Canada.

MULTI-STOREY BUILDING CONCEPT

HIGH -RISE RESIDENTIAL AND MULTIFUNCTIONAL BUILDING

The towers are connected by a closed atrium with technical rooms on a common stylobate, which is a single architectural volume of 5 floors, on which there is a mall with boutiques, banks, grocery stores, and parking

RESORT AND MULTIFUNCTIONAL PUBLIC BUILDINGS CONCEPT

OBSERVATORY CONCEPT. SHEREGESH RESORT, ALTAI

The observatory with a super modern astronomical telescope. Monolithic volume is blend into the landscape and appears to be a natural extension of it. It is located in a bowl, which is an amphitheater with 100 seats.

RESORT AND MULTIFUNCTIONAL PUBLIC BUILDINGS CONCEPT

OBSERVATORY CONCEPT. SHEREGESH RESORT, ALTAI

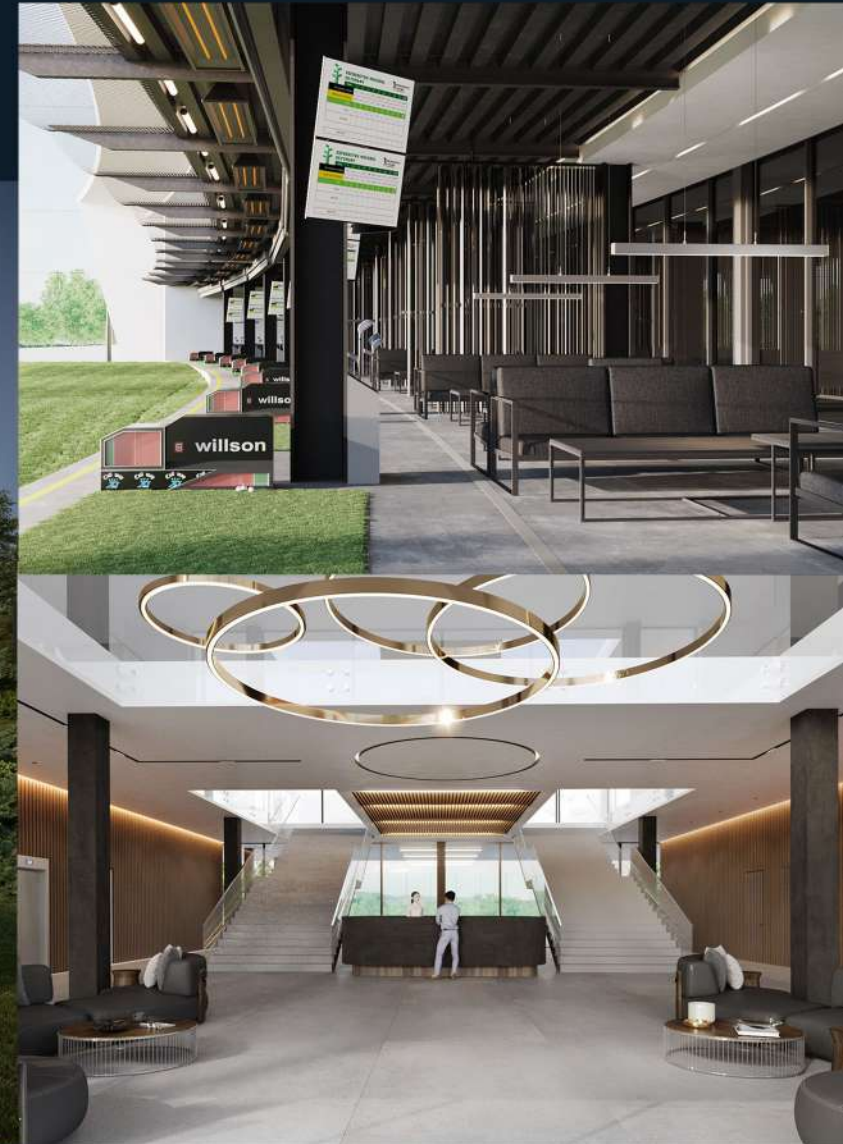

Structurally, the observatory has the shape of a ball. In the basement of the complex there is a conference hall for business meetings, conferences, and presentations which allows accommodating up to 800 visitors.

RESORT AND MULTIFUNCTIONAL PUBLIC BUILDINGS CONCEPT

GOLF RANGE CONCEPT, MOSCOW

The club has a golf academy, public and individual training areas, equipped multimedia simulator booths, 30 public and VIP grounds with access to the driving range, a gym, a storage room for equipment, a bar-restaurant.

MULTIFUNCTIONAL PUBLIC BUILDINGS CONCEPT

INDUSTRIAL COMPANY HEADQUARTERS CONCEPT

The club has a golf academy, public and individual training areas, equipped multimedia simulator booths, 30 public and VIP grounds with access to the driving range, a gym, a storage room for equipment, a bar-restaurant.

SUPER MEGA YACHT CONCEPT DESIGN

YAHT 111 CONCEPT

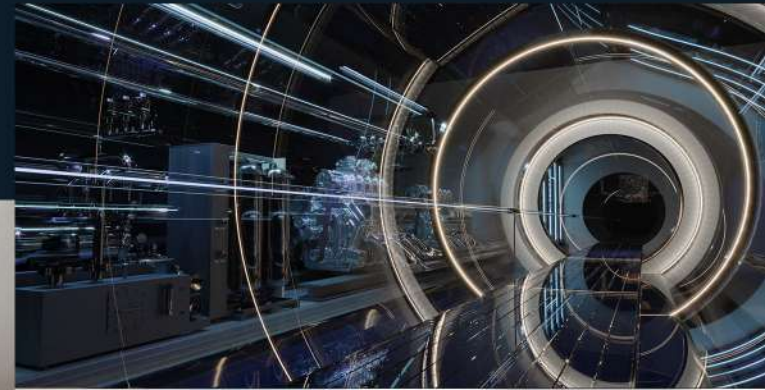

we have developed a unique, exclusive design of a 111-meter-long mega yacht. In collaboration with a well-known shipyard, we have created a design concept for an ultra-modern luxury vessel.

SUPER MEGA YACHT CONCEPT DESIGN

YAHT 111 CONCEPT

The extraordinary interior design is represented by ultra-modern stylistics, bionic, smooth shape. Each room of the yacht is filled with a special atmosphere. Only custom products of individual production are used.

LUXURY INTERIOR CONCEPTS

INTERIOR CONCEPT OF THE PRIVATE RESIDENCE IN MOSCOW

In all our projects we wanted to reflect the individual character of the interior, while maintaining a balance between beauty and functionality, elegance and comfort.

LUXURY INTERIOR CONCEPTS

SPECIAL INTERIOR CONCEPT

A special attention was paid to lines, proportions, shapes, and compositional integrity. Deep accent colors, gold sheen, elite furniture, expensive decor, high-quality finish materials, elegant textiles immediately present the status of the interior at once

LUXURY INTERIOR CONCEPTS

TOUCH RESTAURANT INTERIOR CONCEPT

The concept of the Touch restaurant is the idea of the author's touch, therefore, we used the touch symbols – hands, palms and prints in the interior of the restaurant as graphic symbols. Chandeliers in the form of cascades of golden feathers, lamps in the form of hands, palms, railings in the form of papillary lines, smooth curves and the rhythm of dark lamellar ceilings

LUXURY INTERIOR CONCEPTS

COSMETOLOGY CLINIC BEVERLY HILLS

The concept of the «high end» cosmetology clinic in Los Angeles.

MONTANUM PARTNERS

IS A FULL PRODUCTION CYCLE

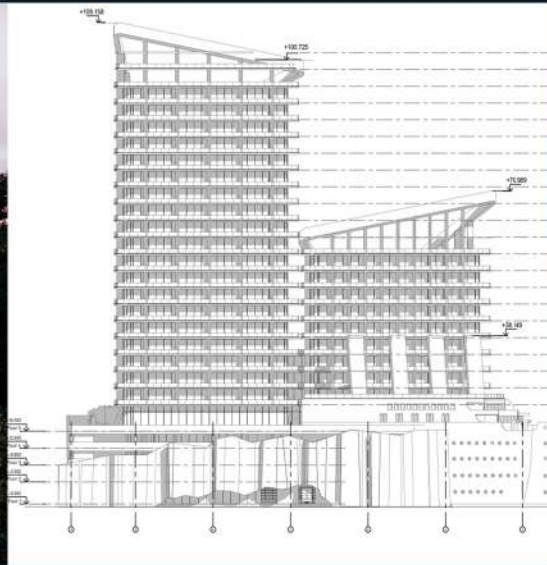

From a conceptual idea to its detailed implementation

CONCEPTUAL DESIGN

Our design team generates ideas and displays them using CGI, VR and augmented reality.

STRUCTURAL DESIGN

A team of engineers creates a project in BIM, which eliminates most of the design errors and allows all project participants to interact and observe the design at all stages in real time.

CONSTRUCTION

Our construction team uses a BIM model to accurately bring the project to life and control the construction process in detail.

PRODUCTION

Our manufacturing partners allow us to complete the project with unique decor items, furniture and accessories that are designed and produced specifically for each project.

If if you share our views and are ready to meet our high standard, welcome to our team of like-minded people

MONTANUM FOR REAL ESTATE

our unique agency interaction program
offers real estate agencies a distinct advantage

Differentiating ourselves from competitors, we are an architectural, construction, and production group providing comprehensive turnkey projects. By collaborating with us, agents not only earn from property sales but also gain a commercial interest in all project stages, multiplying their agency fee. This includes the sale of designs, engineering services, construction, and project completion with high-quality materials, furniture, and decor.

Throughout the entire process, the agent takes the lead, remaining involved at every stage:

- Sketch design concept
- Working design
- Construction or construction management
- Finishing work
- Engineering design
- Engineering works (including energy systems, smart home installations, air conditioning, etc.)
- Design and construction of swimming pools and SPA zones
- Production of finishing materials (gypsum panels, wood panels, window systems, furniture, and decor)
- Completion of the project with top manufacturers' products from Europe and the USA
- Collaboration with us provides numerous benefits for agencies, including earnings at each stage and the ability to offer clients the best value in terms of completeness, quality, and price.

For performers, the advantages include a constant stream of clients, eliminating the need for self-advertising, as well as unified project management from a single source, ensuring a seamless transition between stages.

Agents and assigned specialists manage projects together in a dedicated cloud account, guaranteeing transparency and control throughout the project's implementation. Additionally, clients have joint access to the BIM project, enabling real-time monitoring of design, construction, and equipment progress.

MONTANUM TEAM

| THE MOST VALUABLE IS TALENTED PEOPLE

Vladimir Kandr
Art director

Rustam Malikov
Lead designer

Evgenia Malikova
CEO Design

Pavel Melnik
CEO Production

Olga Gaidarenko
Public relations
specialist
